

# VR is the Game Changer in the Exhibition Industry

Enhancing your visitor experience with the latest technology

## Help your exhibit succeed in the VR/AR era

Imagine an area in your exhibit hall where your visitors can access a portal that can take them anywhere. They could use that portal to:

- Travel back in time.
- Walk inside an Egypt pyramid.
- Experience ancient lifestyles.
- See the artist creating his/her masterpiece.
- See the 7 wonders of the world, even those already long gone.
- Interact with famous characters from the past, real or fictitious ones.
- Witness historic events or famous battles in land, sea or air.
- See any artifact being used by their creators in their time and place
- Amaze your kids with extinct animals coming back to life
- Visit a distant art exhibit or museum, now and here

or any other scenarios you may dream of.

## Dream Machine®

is our turn-key multi user VR solution that will help you build market interest and begin booking more visitors today!
